

# **Celebrate the States**

## **At Home Ideas**

These are just ideas. Please feel free to prepare for the weekly gathering by using any method that works for your family.

Daily 1-15 minutes - Do the memory work

Learn about the 3 states for the week. This might be doing one state per day OR one activity about the 3 states each day.

Print out the state maps and try learning some of the following things about each state:

1. What natural resources are in each state
2. Learn about the topography of each state by drawing in the main rivers, lakes and mountains.
3. Label the main industries like Oil and Gas production, AI factories, Auto Manufacturing and the companies in that state.

Conversation starters about each state:

1. Talk about the times you've been in each state and look at pictures of your experience there.
2. Talk with a grandparent or neighbor about their time in each state.
3. Find someone who's been born in each state.

These items can be as quick and simple or long and complicated as you'd like depending on your kids interest. If you have other ideas please let me know so we can share with everyone.
